

Hip & Joint Health

A free seminar by Dr. Karl Balch, Board Certified Orthopedic Surgeon

Dr. Karl Balch was born in San Diego, CA. He completed his undergraduate studies at the University of Southern California and medical school at the University of Chicago. He completed his Orthopedic Residency at Ohio State University and his hip and knee replacement fellowship at Medical College of Virginia / VCU.

In this DocTalk, Dr. Balch will be discussing hip anatomy, improvements to bone health, joint replacement, and when it's time to see a specialist.

Dr. Balch will provide expertise on the following:

- Basic hip anatomy
- Causes of hip pain
- Arthritis: What is it?
- Non-surgical treatments for hip issues
- Joint replacement diagnosis and treatment plans
- When to see a specialist
- Orthopedic care during COVID-19
