

Kidney and Urinary Health

Urologist Dr. Edwin Youngstrom

March is National Kidney Health Month. Join board-certified urologist, Dr. Edwin Youngstrom to learn about various issues, screenings, prevention and treatments.

Currently the Chief of Surgery at Memorial Hospital, Dr. Youngstrom uses a personalized approach to patient care. Specializing in men's health, urinary issues in men and woman, prostate cancer, kidney stone disease, and sexual dysfunction, Dr. Youngstrom builds an individualized care plan for each patient. He is current with the newest advances in surgical technology, performing robotic surgery and using the latest minimally invasive techniques for common urologic issues, including GreenLight laser and shockwave lithotripsy.

Dr. Youngstrom, D.O. will provide expertise on the following:

- Common Kidney Issues
- Preventative Screenings
- Latest Treatment Options
- Open Q & A Session
